

Parents Praise Dr. Hippo's Care

"I got your books as a shower gift, but I hadn't had a chance to read them until yesterday. My daughter, Zoe, has had a cold and I've been getting so much different advice from everyone, I had become really worried. Then I remembered I had your books and got them right away.

I read "Katie" first, and I felt so much better right away. Your advice is exactly what my nurse practitioner had been telling us, but my Mom, my in-laws, and my step mother had been telling me different things. Your books delivered the advice I needed in such a wonderful way. It was a great story for Zoe and an important lesson for me. **Your parent guides are essential for every first time mother.** It's like a trip to the doctor's office without the hassle or expense."

--Massachusetts Mom

"She had fun pointing out things like the thermometer. She loved the illustrations, especially the one of Dr. Hippo's Office"

--Author Mom

"I think it's a great way to talk to kids about symptoms when they're not feeling well. **All you have to do is ask them which character they're feeling like.**"

--Southern Mom

I wanted to let you know that my Mia just loves "The Little Elephant." **She wants me to get copies for my niece and nephew (who are 10 months and four years).** Mia's only had two ear infections while Nora and Jake, her cousins, have had numerous ones. She thought that the book would 'make them feel better.' My daughter insisted that I read to her about Eddie **THREE TIMES** in a row last night. **I have just put in an Amazon order for your other books,** because I'm certain we'll like those just as much."

---Midwest Mom

"I just finished watching San Diego Public Television, Featuring Dr. Charlotte Cowan. **I would very much like to purchase copies and to give them as gifts plus be informed whenever Dr. Cowan has a new book published.** I am a nurse and a new grandmother and I find this to be such a wonderful approach to wellness and learning for new moms, especially in this age of vast amounts of information—and misinformation—around us. Thank you in advance for your kind reply."

----First Time Grandmother

Parents Praise Dr. Hippo's Care

"Your book has won over one west coast four-year-old who has asthma. For the first week, **she demanded nightly readings** and it is in the bed with her when she goes to sleep."

-----California Grandmother

"I liked how the book provided enough information for the child to understand about fever and why she should get rest and lots of fluids."

"I loved Dr. Hippo....the story showed how a gentle Dr. Hippo can calm her fears. Visits and discussion with him were clear, so I can remind my son about his favorite Dr. Hippo book. **I just loved this series and can't wait to see more.**"

"I have a question. When will the moose with the loose poops be ready to get....because I am going to get it. I love the books. They are down on a child level where they can learn about it. **I have been telling people all about the books. Reading is fun!**"

-Mississippi Headstart Teacher and young Mom

"I liked how Dr. Hippo, step-by-step, examined 'Eddie.' *The story is just like everyday life with my kids.*"

"I am hoping that every parent, and grandparent, who sees the books will want a set on their shelf, and will tell all their friends. Such a wonderful gift. Much as with Velcro and post-it notes, I imagine people will wonder how they ever got along without Dr. Hippo!"

--Church School Mom

"My son and I borrowed *Sadie's Sore Throat* from the local library last night. We will be making a trip back to the library today to pick up the others in the series. **My son was so sad to find out that *Moose with Loose Poops* is not out yet.** He is four and thinks I can magically make it appear now☺

After I wrote you, I took Carter to the library to pick up *Peeper Has a Fever*. He walked right up to the librarian and said, '**Excuse me do you have *Moose with Loose Poops*?**' She looked at me with the funniest expressions! I chuckled and quickly showed her the back cover to help explain. **I will be sure to tell all my friends about your wonderful books.**"

--California Mom
